Dear Sir/Madam,

Market Guidance

Reduced pricing into the Australian domestic market will achieve lower revenues than forecast. This together with below budget yield resulting from severe seasonal factors, are forecast to result in a reduction in earnings from operations in comparison to the prior year.

Directors give guidance that the total company NPBT is expected to be between \$4.25 million and \$4.75 million. The company expects to release full year financial results to the market during the last week in August.
